

HOGWASH

CENTRAL SC H.O.G. CHAPTER #4772 JUNE 2022 SPONSORED BY HARLEY HAVEN

KIM'S KORNER

I've been riding Harley-Davidson motorcycles for about 12 years now. I am by no means a mechanic or "gear head". I just liked riding a Harley. When I bought my 2011 Road Glide Ultra I started to make my monthly trip in to see Ricci at Harley Haven to see what kind of chrome I would be adding to the bike that month. But as I started to ride with the HOG chapter and met guys that knew a lot more about H-D's than I did or ever will, I started to hear about Stage 1, Stage 2, etc. and had no clue what it meant but I knew I had to start adding it to my bike. Because who wants to be left behind at the stop light!

So what does all this stage talk mean to your pride and joy?

The following descriptions can be used to generally describe the various performance levels and modification for each stage:

Stage 1: these are generally considered exhaust and intake modifications to an otherwise stock engine along with the appropriate EFI Tuner. Most Stage 1 type modifications are typically in the +10-15% power increase over stock.

Stage 2: this is typically referred to an engine with a performance cam upgrade as well as the other components within a Stage 1 combination. A typical Stage 2 has generally +20-25% more HP than stock.

Stage 3: most normally refer to the Stage 3 type build as a mild big bore & cam upgrade and included the other components of the lower Stages. These kits in most cases use the stock throttle body and most of the other stock components. HP increases can be +30-40% or more from stock

2021 CENTRAL SC HOG OFFICERS

Russ Siciliano RSICILIANO@SC.RR.COM	Director	(803) 429-2248
Kim Robinson KN_ROBINS@YAHOO.COM	Assistant Director	(815) 786-5008
Britt Waidner BWIDNER@YAHOO.COM	Activity Coordinator	(513) 582-7404
Michele McLain MEMCLAIN13@GMAIL.COM	LOH Director	(570) 233-3413
Jessc Shoemaker JLEWIS@HARLEY-HAVEN.NET	Newsletter Editor	(803) 781-1837
Tim and Stephanie Lucas	Sponsoring Dealer	781-1837

Stage 4: this would be a moderate compression big bore combination. It includes headwork and more cam than a Stage 3. In many cases it would include a larger throttle body & injectors (depending on the specific model). Additional supportive mods would be required such as clutch and other upgrades. Power levels can be +50-60% or much more over stock

Stage 5: this would be a custom high compression big bore combination. It includes comprehensive headwork and aggressive cam. This requires larger throttle body & injectors as well as additional supportive mods - would be considered fuel & tune sensitive. Power levels can be +70-80% or much more over stock, in some cases even more.

So if you are ready to make that next step in upgrading your motorcycle's performance, check in with Tejay or Randy or one of the other Harley Haven technicians to get the details on taking it to the next stage in your bike's life!

Kim Robinson

BRITT'S WITTS

Hello my fellow Hoggies! It seems we have jumped from winter to summer. The spring decided not to grace us with its presence; but in this time, we have had some good rides and great fellowship.

Our ride back in April was to Big Boys Buffet up in Clinton. The group did get separated for a short time on 176, but we picked everybody back up at 34. One of our members thought he had some paperwork fly off the bike – but it was a false alarm. We regrouped and continued to Clinton. The weather was perfect we had 13 bikes and 22 people.

The Day Ride in May was down to Boll Weevil to grab some of their great desserts - *the real reason we go*. We all got a small bite of food to justify eating our desserts. Dennis however just went straight for the kill with a piece of carrot cake that made everybody's mouth drop from the size of it. Mother Nature was fantastic that day of bright sun and 80 degree weather.

June 15 and 16 will be the Patriot Tour for the flag at Harley Haven. The flag left Erie, PA back on May 21 for its 115 day tour of all 50 States and we will receive the flag on the 15th between 12:30 to 13:30 on that Wednesday from Falcon's Fury H-D. We will leave the following morning on the 16th to take it to Low Country H-D. We plan to leave about 9 AM from the Haven and get to Charleston about lunch time. I hope we can get a few of our Veterans for the ride and any friends that may want to participate. This is an open ride and all are welcome. Low Country should have food and refreshments for us when we arrive.

Britt Waidner

HARLEY HAVEN HAPPENINGS

June is here which means it's really starting to *heat up!* Do you have the proper riding gear for riding in warmer temps? Here at Harley Haven, we have a great selection of performance shirts with moisture wicking features to keep you cooler longer. We also have Soaker Neck Tubes you can soak in cold water and keep around your neck to keep your body

temperature down. Along with proper gear and staying hydrated, it can be great riding this month!

June also means Father's Day is coming up and here at the Haven we want to celebrate dear ol' Dad with our annual cookout and classic car cruise-in! Join us Saturday, June 18th from 12-4pm for free food (while it lasts), ice cold refreshments, live music by Sidekix and check out some beautiful classic cars on site! We will be looking for volunteers to cook hot dogs as well as sell refreshments. There will be a sign-up sheet at June's meeting.

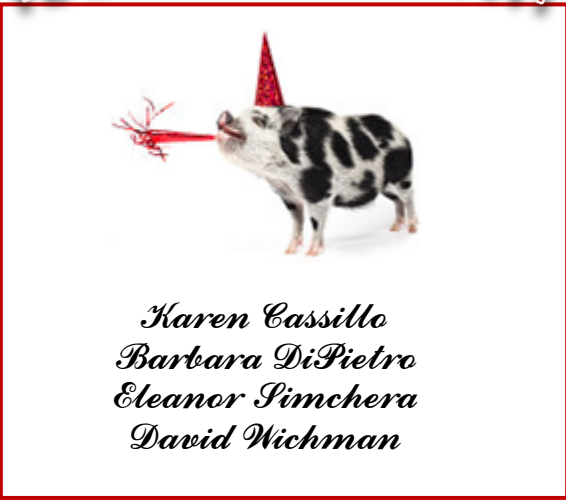

If you or someone you know has a classic car, truck or motorcycle they'd like to show off, please spread the word! No trophies or awards, just enjoying the classics and camaraderie.

Look forward to seeing you all soon and until then – *Ride the Adventure, Live the Dream.*

Jessc Phoemaker

HAPPY BIRTHDAY!
